SUBJECT INDEX

Abstracts
First International Phycological Congress 531
Acetate
and dinoflagellate nutrition 17
Agardhiella
gaudichaudii, transferred to *Sarcodiotheca* 86; phylogeny of 86
Agarum
cribrosum, interactions with sea urchins and with *Laminaria* 189
Ahnfeltia
plicata, basal crust 307
Algal blooms 103, 154
Gymnodinium in Mexico 154; *Pyramimomas* in Antarctic sea ice 103
Amphidinium
carterae, nutrition 17
hoefleri, nutrition 17
Ankyra
relationship to *Paradoxia* 27
Antarctica
Ascoseira, reproduction and development 55; *Pyramimonas*, in sea ice 103
Antheraxanthin
Gracilaria, presence in 9
Antheridia
Laminaria, ultrastructure 1
Ascidians
Prochloron, as a symbiont 258
Ascoseira
mirabilis, reproduction and early development 55
Ascoseirales
status of 55
Australia
Phaeophyceae, flagella 427; snow algae from 178
Axenic cultures
production by osmotic shock 408
Bacillariophyceae
Cocconeis 370; flagellar roots 427
Basispora
transferred to Mesosporaceae 382
Bicosoeca
mignotii, basal body 427
Biomass
yield and phosphate availability in *Cosmarium*, *Pediastrum* and *Peridinium* 47
Book reviews
see listing at end of subject index
Books and publications received 199, 425, 531
Bostrychia
radicans, estuarine ecology and life history 112
Brazil
Sargassum, ecology and wave exposure 145
Breeding patterns
Chara 243
Bulbils
Chara 243
Calcification
Lithoporella 201; *Mastophora* 201
Calcium carbonate
Gloeotaenium, deposition in 323
California
Pelagophycus, demography 399; *Rhodophysema*, life history 67
Callithamnion
hookeri, hybridization and morphogenesis 137
Caloglossa
leprieurii, estuarine ecology and life history 112
Carbon fixation
in *Prochloron* 258
Carotenoids
in *Gracilaria* 9
Cell wall
Chlorothrix, ultrastructure 355; *Ulothrix*, ultrastructure 355; *Urospora*, ultrastructure 355
Chara
aspera, breeding patterns 243
Charophyta
Chara 243
Chemotaxonomy
Prochloron 258
Chlamydomonas
bolyaiana, snow alga from Australia 178
nivalis, snow alga from Australia 178
reinhardtii, flagella 427
Chlorella
axenic culture of 408
Chloromonas
brevispina, snow alga from Australia 178
Chlorophyta
Chaetophoraceae 247; *Chlamydomonas* 178, 427; *Chlorella* 408; Chlorococcales 27, 323; *Chloromonas* 178; *Chlorothrix* 355; Cladophorales 164; *Closterium* 131; Conjugales 131; *Cosmarium* 47, 131; *Desmidium* 131; *Endophyton* 247; flagella 427; *Gloeotaenium* 323; *Golenkinia* 427; *Koliella* 178; *Mesotaenium* 408; *Micromonas* 427; *Nannochloris* 408; *Paradoxia* 27; *Pediastrum* 47; *Raphidonema* 178; *Ulothrix* 355; *Ulva* 125; *Ulvopsis* 427; *Urospora* 355
Chlorothrix
kornmannii, ultrastructure 355
gracilis, ultrastructure 355
Chondrus
crispus, effects of GeO_2 on 125
Chromosome numbers
in desmids 131
Chrysophyceae
Bicosoeca 427; flagella 427; *Ochromonas* 390; *Synura* 427
Classes of algae
flagellar structure and 427; naming of 427
Closterium
acerosum, chromosome numbers 131
moniliferum, chromosome numbers 131
Cocconeis
klamathensis, morphology and fine structure 370
pediculus, morphology and fine structure 370

placentula, morphology and fine structure 370
pseudomarginata, morphology and fine structure 370
cp. *rouxii*, morphology and fine structure 370
scutellum, morphology and fine structure 370
Colacium
calvum, taxonomy 173
physeter, synonymized with *C. calvum* 173
vesiculosum, taxonomy 173
Competition
Agarum, *Laminaria*, and sea urchins 189
Constitution of I.P.S. 196
Cosmarium
biomass yield and phosphate nutrition 47
hammeri, chromosome numbers 131
subturgidum, chromosome numbers 131
Crustose algae
Mesospora (Phaeophyta) 382; Rhodophyta 307
Cryophilic algae
Pyramimonas in Antarctic sea ice 103; from Snowy Mountains, Australia 178
Cryptophyceae
flagella 427
Culture methods
axenic cultures via osmotic shock 408
Cultured Aquatic Food Organisms Laboratory 199
Cutleria
cylindrica, nuclear division in meristem 273
Cyanophyta
Oscillatoria 327
Cystophora
polycystidea, flagella 427
Cystoseira
stricta, iridescent bodies in 34
Delesseria
ferlusii, transferred to *Duckerella* 236
Delesseriaceae
Duckerella gen. nov. 236
Demographic studies
Pelagophycus 399
Dermocorynus
montagnei, basal crust 307
Desmarestia
firma, life history 316
Desmidium
aptogonum, chromosome numbers 131
Desmids
chromosome numbers in 131
Desmotrichum
undulatum, influence of light, temperature, and nitrogen on morphogenesis 264
Dinophyceae
Amphidinium 17; flagella 427; *Gymnodinium* 17, 154; *Peridinium* 47; *Prorocentrum* 17; *Protogonyaulax* 154; *Scrippsiella* 17
Dissolved organic matter
dinoflagellate nutrition and 17
Duckerella
gen. nov. 236
ferlusii, comb. nov., morphology/taxonomy 236
Durvillea
potatorum, flagella 427
Editorship change 101
Endophytic algae
Endophyton ramosum, structure, reproduction, life history 247
Endophyton
ramosum, structure, reproduction, life history 247
Endozoic algae
Oscillatoria spongeliae, ultrastructure and taxonomic status 327; *Prochloron*, carbon fixation and photosynthesis in 258
Epiphytes
control of on *Halidrys* 185
Estuary
ecological tolerances of red algae 112; seasonal distribution of red algae 112
Euglenophyceae
Colacium 173; *Eutreptiella* 427; flagellar structure 427
Eustigmatophyceae
flagella 427
Eutreptiella
eupharyngea, flagella 427
Faroes Is.
Callithamnion 137
First International Phycological Congress
Program and Abstracts 531
Flagella
structure in algae, a review 427
France
Callithamnion 137; *Paradoxia* from 27
Free-living macroalgae 336
Fucus
spiralis, effects of GeO_2 on 125
Fungal infections
in *Pilayella littoralis* 336
Fungi
associated with snow algae 178
Germanium dioxide
effects on growth of macroalgae and diatoms 125
Glaucophyceae
flagella 427
Gloeotaenium
loitlesbergarianum, mineral deposition in 323
glucose
and dinoflagellate nutrition 17
glycerol
and dinoflagellate nutrition 17
glycine
and dinoflagellate nutrition 17
glycollate
and dinoflagellate nutrition 17
Golenkinia
minutissima, flagellar tip 427
Golgi apparatus
and iridescent bodies of *Cystoceira* 34
Gracilaria
atypical carotenoids in 9
Grateloupia
filicina, basal crust 307
Great Britain
Laurencia species present 299
Gymnodinium
catenatum, morphology/taxonomy 154
incertum, nutrition 17

Halidrys
siliquosa, and epiphyte control 185
Hapalospongidion
transferred to Mesosporaceae 382
Haptophyceae
flagella 427
Hildenbrandia
prototypus, morphology/anatomy 307
Himanthalia
elongata, flagella 427
hormones
Laminaria spermatozoids and 1
Hormosira
banksii, flagella 427
hybridization
Chara aspera 243; disjunct populations of *Callithamnion hookeri* 137; *Macrocystis* × *Pelagophycus* 399; *Sargassum* in Brazil 145
International Phycological Society
Constitution 196; Minutes, 1980 General Business Meeting 194; Editorship change 101
Iridescent bodies
in *Cystoseira* 34
Japan
Mesospora schmidtii 382
Kelps
demography and hybridization in California 399
Koliella
nivalis, snow alga from Australia 178
Laminaria
digitata, antheridium and spermatozoid ultrastructure 1; interactions with *Agarum* off Newfoundland 189
saccharina, effects of GeO_2 on 125
Laurencia
in Great Britain 299
hybrida, morphology/anatomy 299
obtusa, morphology/anatomy 299
pinnatifida, morphology/anatomy 299
Life history
Bostrychia radicans 112; *Callithamnion hookeri* 137; *Caloglossa leprieurii* 112; *Desmarestia firma* 316; *Endophyton ramosum* 247; *Pilayella littoralis* 336; *Rhodophysema elegans* 67
Light
and dinoflagellate nutrition 17; effects on *Desmotrichum* morphogenesis 264
Lithoporella
gen. emend. 218; meristems 201; reproduction 218
melobesioides, morphology/taxonomy 201, 218
Loxophyceae
flagella 427; list of genera 427
Macrocystis
hybridization with *Pelagophycus* 399
Madagascar
Duckerella ferlusii gen. et comb. nov. (Rhodophyta) 236
Mamiella
gilva, flagellar scales 427
Massachusetts
Desmotrichum undulatum from 264; free living *Pilayella littoralis* 336
Mastophora
gen. emend. 218; meristems 201; reproduction 218
rosea, morphology/taxonomy 201, 218
Meristems
Cutleria, nuclear division in meristem 273; *Lithoporella* 201; *Mastophora* 201
Mesospora
pangoensis comb. nov., transferred from *Ralfsia* 382
pangoensis var. *galapagensis* comb. nov., transferred from *Ralfsia* 382
schmidtii, morphology/taxonomy 382
Mesosporaceae
fam. nov. 382
Mesotaenium
axenic culture of 408
Mexico
Gymnodinium, blooms 154
Micromonas
pusilla, flagella 427
Mineral deposition
Gloeotaenium 323
Mitosis
Cutleria meristem 273
Morphogenesis
Desmotrichum 264
Nannochloris
axenic culture of 408
Necridia
occurrence in *Oscillatoria spongeliae* 327
Nephroselmis
olivacea, flagella 427
Newfoundland
Agarum cribosum ecology 189
New Jersey
studies on estuarine algae from 112
New Zealand
Phaeophyceae, flagella 427
Nitrogen
effect on *Desmotrichum* morphogenesis 264
Norway
Callithamnion 137
Nuclear division
Cutleria meristem 273
Obituaries and death announcements
Blackler, M.C.H. 420; Chapman, V.J. 411; Levring, T. 199; Zanlungo, A.B. 419
Ochromonas
crenata, distinct from *O. sphaerocystis* 390
sphaerocystis, morphology and ultrastructure 390
Oscillatoria
endosymbiont of a sponge 327
spongeliae, ultrastructure and taxonomic status 327
Pacific North America
Endophyton from 247; *Schizochlaenion rhodotrichum* gen. et sp. nov. 288
Palmariales
transfer of *Rhodophysema* into 67
Pakistan
phycological news from 99
Papenfuss (G.F.) Memorial Fund 425

Paradoxia
pelletieri, morphology/taxonomy 27; relationships to *Ankyra* 27
Pediastrum
duplex, biomass yield and phosphate nutrition 47
Pelagophycus
porra, seasonality, survivorship, growth patterns 399
Peridinium
cinctum, biomass yield and phosphate nutrition 47
Periplast scales
Pyramimonas 103
Phaeophyta
Agarum 189; *Ascoseira* 55; Ascoseirales 55; *Basispora* 382; *Cutleria* 273; *Cystophora* 427; *Cystoseira* 34; Cystoseiraceae 34, 185; *Desmarestia* 316; *Desmotrichum* 264; *Durvillea* 427; Ectocarpales 336; flagella 427; Fucales 34, 145; Fucophyceae 427; *Fucus* 125; *Halidrys* 185; *Hapalospongidion* 382; *Himanthalia* 427; *Hormosira* 427; *Laminaria* 1, 125, 189; Laminariales 189, 399; Lessoniaceae 399; *Macrocystis* 399; *Mesospora* 382; Mesosporaceae fam. nov. 382; *Pelagophycus* 399; *Phyllospora* 427; *Pilayella* 336; Punctariaceae 264; Ralfsiales 382; *Sargassum* 145; *Xiphophora* 427
Phosphate
and biomass yield 47; utilization and storage 47
Photosynthates
analysis of in *Prochloron* 258
Phyllospora
comosa, flagellar root 427
Phylogeny
flagellar structure and 427; Rhodophyta in relation to pigments 9
Pilayella
littoralis, life history and morphology 336; free living 336
Polysaccharides
iridescent bodies of *Cystoseira* and 34
Polysiphonia
subtillissima, estuarine ecology 112
urceolata, effects of GeO_2 on 125
Poryphyra
umbilicalis, effects of GeO_2 on 125
Porphyrodiscus
simulans, basal crust 307
Prasinophyceae
flagella 427; list of genera 427; *Mamiella* 427; *Nephroselmis* 427; *Pyramimonas* 103, 427
Predation
sea urchins and *Agarum* 189
Prochloron
carbon fixation and photosynthesis in 258
Prochlorophyta
Prochloron, carbon fixation and photosynthesis in 258
Prorocentrum
balticum, nutrition 17
Prymnesiophyceae
flagella 427; inclusion in Haptophyceae 427
Pyramimonas
gelidicola, sp. nov., in Antarctic sea ice 103
octopus, rhizoplast 427
Pyrenoids
Chlorothrix, ultrastructure 355; *Ulothrix*, ultrastructure 355; *Urospora*, ultrastructure 355
Ralfsia
pangoensis, transferred to *Mesospora* 382
pangoensis var. *galapagensis*, transferred to *Mesospora* 382
Ralfsiales
Mesosporaceae fam. nov. 382
Raphidonema
nivale, snow alga from Australia 178
Raphidophyceae
exclusion of *Reckertia* 427; flagella 427
Reckertia
exclusion from Raphidophyceae 427
sagittifera, flagellar structure 427
Reviews
flagellar structure in algae 427
Rhodophyta
Agardiella 86; *Ahnfeltia* 307; *Bostrychia* 112; *Callithamnion* 137; *Caloglossa* 112; Ceramiales 288, 299; *Chondrus* 125; Corallinaceae 201, 218; Delesseriaceae 236; *Dermocorynus* 307; *Duckerella*, gen. nov. 236; Gigartinales 9; *Gracilaria* 9; *Grateloupia* 307; *Hildenbrandia* 307; *Laurencia* 299; *Lithoporella* 201, 218; *Mastophora* 201, 218; Palmariales 67; phylogeny and pigment composition 9; *Polysiphonia* 112, 125; *Porphyra* 125; *Porphyrodiscus* 307; *Rhodophysema* 67; *Sarcodiotheca* 75, 86; *Schizochlaenion*, gen. nov. 288; Solieriaceae, taxonomy of 75, 86
Rhodophysema
elegans, life history (sexual) 67; transfer from Cryptonemiales to Palmariales 67
Salinity tolerance
Bostrychia 112; *Caloglossa* 112; *Polysiphonia* 112
Sarcodiotheca
dichotoma, morphology/taxonomy 75
furcata, morphology/taxonomy 75
guadichaudii, comb. nov., morphology/taxonomy 86
Sargassum
cymosum var. *nanum* var. nov. 145; wave exposure and ecotypic differentiation 145
Schizochlaenion
gen. nov. 288
rhodotrichum sp. nov., from Pacific North America 288
Scrippsiella
trochoidea, nutrition 17
seasonal cycles
in unattached *Pilayella* communities 336
seasonal distribution
estuarine algae in New Jersey 112
sea urchins
grazing on *Laminaria* and *Agarum* 189
Seaweed Symposium (XIth) 425
snow algae
from Snowy Mountains, Australia 178

snow fungi
from Snowy Mountains, Australia 178
South Africa
Desmarestia firma, life history 316
Spermatozoids
flagellar structure 427; *Laminaria*, ultrastructure of 1; *Phaeophyceae* 427; *Vaucheria* 427
Symbiotic algae
Oscillatoria spongeliae, ultrastructure 327; *Prochloron*, carbon fixation and photosynthesis in 258
Synura
petersenii, flagellar scale formation 427
Temperature
effects of *Desmotrichum* morphogenesis 264
Ulothrix
flacca var. *roscoffensis* ultrastructure 355
speciosa, ultrastructure 355
Ultrastructure
Cutleria meristem 273; *Hildenbrandia* thallus 307; iridescent bodies of *Cystoseira* 34; *Laminaria* antheridia and spermatozoids 1; *Ochromonas sphaerocystis* 390; *Oscillatoria spongeliae* 327; *Pyramimonas* 103; *Ulothrix* 355
Ulva
lactuca, effects of GeO_2 on 125
Ulvopsis
grevillei, flagellar tip 427
Unattached macroalgae
Pilayella in Massachusetts 336
Urospora
ultrastructure 355
Vaucheria
two headed spermatozoids 427
Vegetative reproduction
Pilayella littoralis 336
Vesicles
and iridescent bodies of *Cystoseira* 34; *Ochromonas sphaerocystis* 390
Violaxanthin
Gracilaria, presence in 9
Western Society of Naturalists 425
Wave exposure
effects on ecotypes of *Sargassum* 145
Xanthophyceae
flagella 427; *Vaucheria* 427
Xiphophora
chondrophylla, flagella 427
gladiata, flagella 427
Zoospores
Desmarestia firma 316; *Endophyton ramosum* 247

BOOK REVIEWS

A Biology of Desmids. By Alan J. Brook (Reviewed by G. Robin South) 97
A Key to the Commoner Desmids of the English Lake District. By Edna M. Lind and Alan J. Brook (Reviewed by Joe Gerrath) 97
Algae. A Taxonomic Survey. Fasc. 1. By Tyge Christensen (Reviewed by Paul C. Silva) 192
Algal Biomass. Production and Use. Ed. by Gedaliah Shelef and Carl J. Soeder (Reviewed by Blaine Metting) 422
Diatoms in Alaska. By Niels Foged (Reviewed by Loren L. Bahls) 423
Marine Botany: An Australasian Perspective. Ed. by Margaret N. Clayton and Robert J. King (Reviewed by G. Robin South) 422
Revision of the Stigonemataceae with a Summary of the Classification of the Blue-green Algae. By F. Drouet (Reviewed by Brian A. Whitton) 529
Ultrastructure de la paroi cellulaire des Desmidiacées au microscope électronique à blayage. By Alain Couté and Guillermo Tell (Reviewed by G. Robin South) 529
